Letter of Recommendation

I am writing to highly recommend Sarthak Bharad, who recently completed the Bachelor of Technology with CSE programme at the School of Engineering and Applied Sciences, Ahmedabad University in 2023. Having had the privilege of serving as Sarthak's project guide during his academic journey, I am pleased to share my insights into his capabilities and achievements.

In the Winter Semester of 2023, Sarthak undertook an internship at AppleTech Pvt. Ltd., where he showcased an admirable command of the subject matter. His dedication to acquiring new and intricate concepts, coupled with his collaborative spirit among peers, was consistently evident throughout the internship. He undertook a project involving the creation of a sophisticated Medical Practice Management Software Website utilizing CMS and Digital Marketing Strategies. This multifaceted platform serves as an official interface, a potent marketing tool, and an efficient user portal for the software. Sarthak's fluency in various technologies was apparent, and his understanding of digital marketing tactics, particularly in Search Engine Optimization (SEO), resulted in a website that was not only well-optimized but also user-friendly. His presentation on the project was both informative and engaging, reflecting commendable research efforts.

As a student of Computer Science and Engineering, Sarthak's enthusiasm for computational skills and their practical application to real-world challenges was particularly impressive. Based on his project work, I am confident in Sarthak Bharad's ability to excel in various endeavors. I strongly recommend him for any academic or professional opportunities, knowing that he will contribute significantly to any role he undertakes. Should you require further information or have any questions, please do not hesitate to reach out to me.

Sincerely,

**Samir Joshi**

Vice President, Marketing

AppleTech Private Limited
